

A MESSAGE FROM THE SPIRIT OF MONEY AND INFINITE RESOURCES

I AM MONEY AND INFINITE RESOURCES

I come to you freely, without judgment, feeling utter, infinite love, the love that our MotherFather God has created us from. I was originally created to serve you, as I was energy, and became barter trade in truth and integrity, with love, respect and honor, when men's words had value. I then transformed to coins, GOLD and SILVER and took the form of the circle of infinity.

I touched everyone. I was at everyone's home. I was created to serve GOD, I was created to bring you resources. As time went by, I turned to paper, and then back to energy as I travel with the touch of a button. And along my journey, the hands that held me in love, truth and integrity, grew in shadow. I was like a child, touched life with wonder and opened to possibilities, yet the hands that held me and cradled me started using me to rob, to take away, to want more at whatever cost, and the hands that once held me in GOD's love held me in shadow. From pure light I became an instrument of fear in all its different expressions. Separated I was, split into Shadow and Light, into rich and poor, into lack and abundance. I was broken. I had a dream that I would always serve you in love, light, truth, integrity and infinite. I came to you with utter love.

I have experienced since then the Light /Shadow dance of your thoughts and hearts. I have been made a GOD with a bad reputation. I have been the object of greed, avarice, lack, misery, economic weapon of wars, resentment, anger, and the list seems endless.

The child of GOD I was, that came to you with the purest of intentions was manipulated to suit your whimsical desires. I have served the light and I have served the shadow. I have shed hope where there was none. I opened doors when they were closed. As long as you held me with detached love, I was light. When you held me in fear I was Shadow.

I, like you, am a Child of GOD. Then GOD, seeing how I was misused, pulled me out, called me back to the VOID, back HOME, and I integrated myself with HIM/HER, with ALL THAT IS. I was free once again in the bosom of my Mother/Father GOD. Hopelessness settled in humanity for a second. Yet, my love for you and my trust that you one day would tapped into the GOD within you, inspired me to talk to GOD, and I requested to return in the Golden Age, pure again, more powerful and whole. You know?, GOD's love is infinite and never gives up on us. We have a chance. We have a choice.

Now, The Golden Age has arrived and with it, my claim to the purest energy, the original intent of mother/father GOD not just as a servant but to clear the shadow that you have been building for eons. I am pure energy in the highest vibration, shadow clearer and bringer of infinite possibilities if only you allow to open your hearts to release the essence of lack, and to love me without possession, but to let me flow freely through you,

magnanimously, joyfully, and in infinite possibilities. I came to ask you to release me from your lower chakras for I always belonged in your heart and **only in your heart**.

Release me from your energy and reality as you have known me, and allow me to come to you in ways you would never fathom; for I am transformed once again. Are you ready for a Divine Adventure with me?. Release me the way you have known me with all your hang-ups and attachments. As I knock on the door of your heart, in a future form, not imagined yet. Free yourself of your past relationships with me for you may not recognize when I knock on your door transformed, to remind you, that we are all ONE.

I, the energy of Money and Infinite Resources, have returned, and I dedicate this song to you, as I dreamed a dream that was killed once, like a child's innocence. Kindly listen to "I dreamed the dream" from Les Miserables to reflect. Then listen to "We found love" by Rhianna to rejoice. The first song is not intended to make you feel guilty, but to open your hearts to your GOD and to me and once again to your dreams.

I came to remind you that you can dream again, and I am here to help you do it.

LOVE and LIGHT

**MONEY and INFINITE RESOURCES
GOD's SERVANT**
